In the upper 200s

Located on a quiet street in Waynesboro, this split-level home on half an acre has been lovingly cared for inside and out! Hardwood floors gleam in the living room, dining room, and bedrooms. The updated kitchen with painted cabinets, stainless appliances, new luxury vinyl floors and solid surface counter tops keeps clutter hidden with roll down cabinets. Eat at the breakfast bar too! Three bedrooms await on the upper level including an owners suite with private bathroom, and guest bath with walk-in soaking tub. The lower levels include a den/home office space and a finished basement rec room with bar! Outside, the landscaped yard features multiple gathering spaces, mature gardens, two sheds and an oversized car port! Don't miss out!!
